This response supplements the response filed on May 30, 2006 and responds to the Action mailed August 14, 2006 in the above-identified patent application.

Applicant elects without traverse to prosecute Group I comprising claims 1-10, drawn to a "combination coolant sensor and connection port for selectively sealing an automotive cooling system."

Prompt and favorable consideration of this application is requested.

Respectfully submitted,

By: 

Ralph E. Smith
